DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The closest prior art of record is that of Chang et al. [J. Chinese Chemical Society, 43:73-75 (1996)] which discloses a precursor of certain of the instantly claimed compounds but none with the labile ligands as instantly claimed via the "X" moieties nor any metal option as claimed that are contained in the list of metals for moiety "M". Thus, the instantly claimed invention is neither disclosed nor obvious compared to the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
